How to confirm that your medications are covered by the plan

Why prescription verification matters

Breitenfeldt Group wants you to have the tools to confirm your medication coverage.

Before enrolling, confirm that your medications are included in the plan's formulary and review the tier level for each prescription.

Always verify prescriptions for the exact plan you are considering.

Not all formularies are the same

Drug coverage can vary by carrier, plan, formulary, and medication tier.

1

Check the exact plan

A medication may be covered differently under another plan from the same carrier.

2

Use the plan-specific drug list

Review the formulary connected to the plan you are considering.

Do not rely on a general drug search alone.

MNsure medication information may not be enough

Use the carrier formulary for the most direct plan-specific verification.

1

MNsure is a helpful starting point

You may enter your medications while comparing plan options in MNsure.

2

Confirm the results through BCBS

Medication information shown in MNsure is not always accurate or complete for the specific plan.

Follow the carrier formulary steps below to confirm coverage and tier level.

LOWER EXPENSE

Blue Plus Minnesota Value Bronze
Plan 403

BRONZE HSA PPO

\$163.19 /month

after \$366.00 tax credit

Sign in for drug pricing

If you are already a member, [sign in](#) or [register](#) to get prices and in-network pharmacies specific to your benefits.

Repeat the search using the exact name, dosage, and form for every prescription.

Review the tier and estimated cost

Record the result for each medication before choosing a plan.

Review the formulary result

- Confirm the medication is covered.
- Note the drug tier.
- Record the estimated copay or cost.
- Check any restrictions shown.

Confirm your pharmacy cost

- Return to your MNsure plan comparison.
- Ask your pharmacist to verify your cost.
- If the pharmacy price is less than the copay, you may pay the lower amount.
